HELM Charts Repository

This repository contains Helm charts for various applications and services.

Available Charts

- RouteHub Client: A Helm chart for deploying the RouteHub Client application.
- RouteHub Server: A Helm chart for deploying the RouteHub Server GraphQL Web Service application.

Usage

To use the charts from this repository, follow these steps:

1. Add this repository to your Helm installation:

```
helm repo add routehub-helm https://routehub-link.github.io/RouteHub.HELM/
```

2. Update your local chart information:

```
helm repo update
```

3. Install a chart:

```
helm install my-hub routehub-helm/routehub-client-hub \
    --namespace routehub-clients \
    --create-namespace \
    --set global.customRegistry=your.registry/ \
    --set global.imagePullSecrets[0].name=your-secret-name \
```

```
    --set routehubClientRest.environment.Name="Test Hub" \
    --set routehubClientRest.environment.ORGANIZATION_ID=test-org \
    --set routehubClientRest.environment.OWNER_ID=test-owner \
    --set routehubClientRest.environment.PLATFORM_ID=12058bdf-8940-43b3-bd90-
13487e4c8fc4 \
    --set routehubClientRest.environment.SEED=TRUE
```

Contributing

If you'd like to contribute to this repository, please follow these steps:

1. Fork the repository
2. Create a new branch for your changes
3. Make your changes and commit them
4. Push your changes to your fork
5. Create a pull request

Artifacthub

- Packaging charts

```
helm package ./charts/helm
```

- Updating index.yaml

```
helm repo index
```
